SPECIFICATIONS & COLOR OPTIONS

Our buildings

are made with maintenance-free vinyl siding or Dura-Temp T1-11 painted with your choice of colors. Our doors and windows are all trimmed with vinyl perma-trim or Miratec, which comes with a 50-year warranty and will not rot, crack, peel, or warp. The trim is fastened with stainless steel fasteners. Over the years we have developed a building that is practically maintenance-free in both Dura-Temp and vinyl siding. We use a heavy-duty black powder-coated colonial style hinge, which gives the door a nice unique look, and withstands the elements. Additionally, the keyed lock latch on the door gives you maintenance-free security for your yard and garden tools.

Our buildings are delivered fully-assembled or hand-built onto your prepared site!
